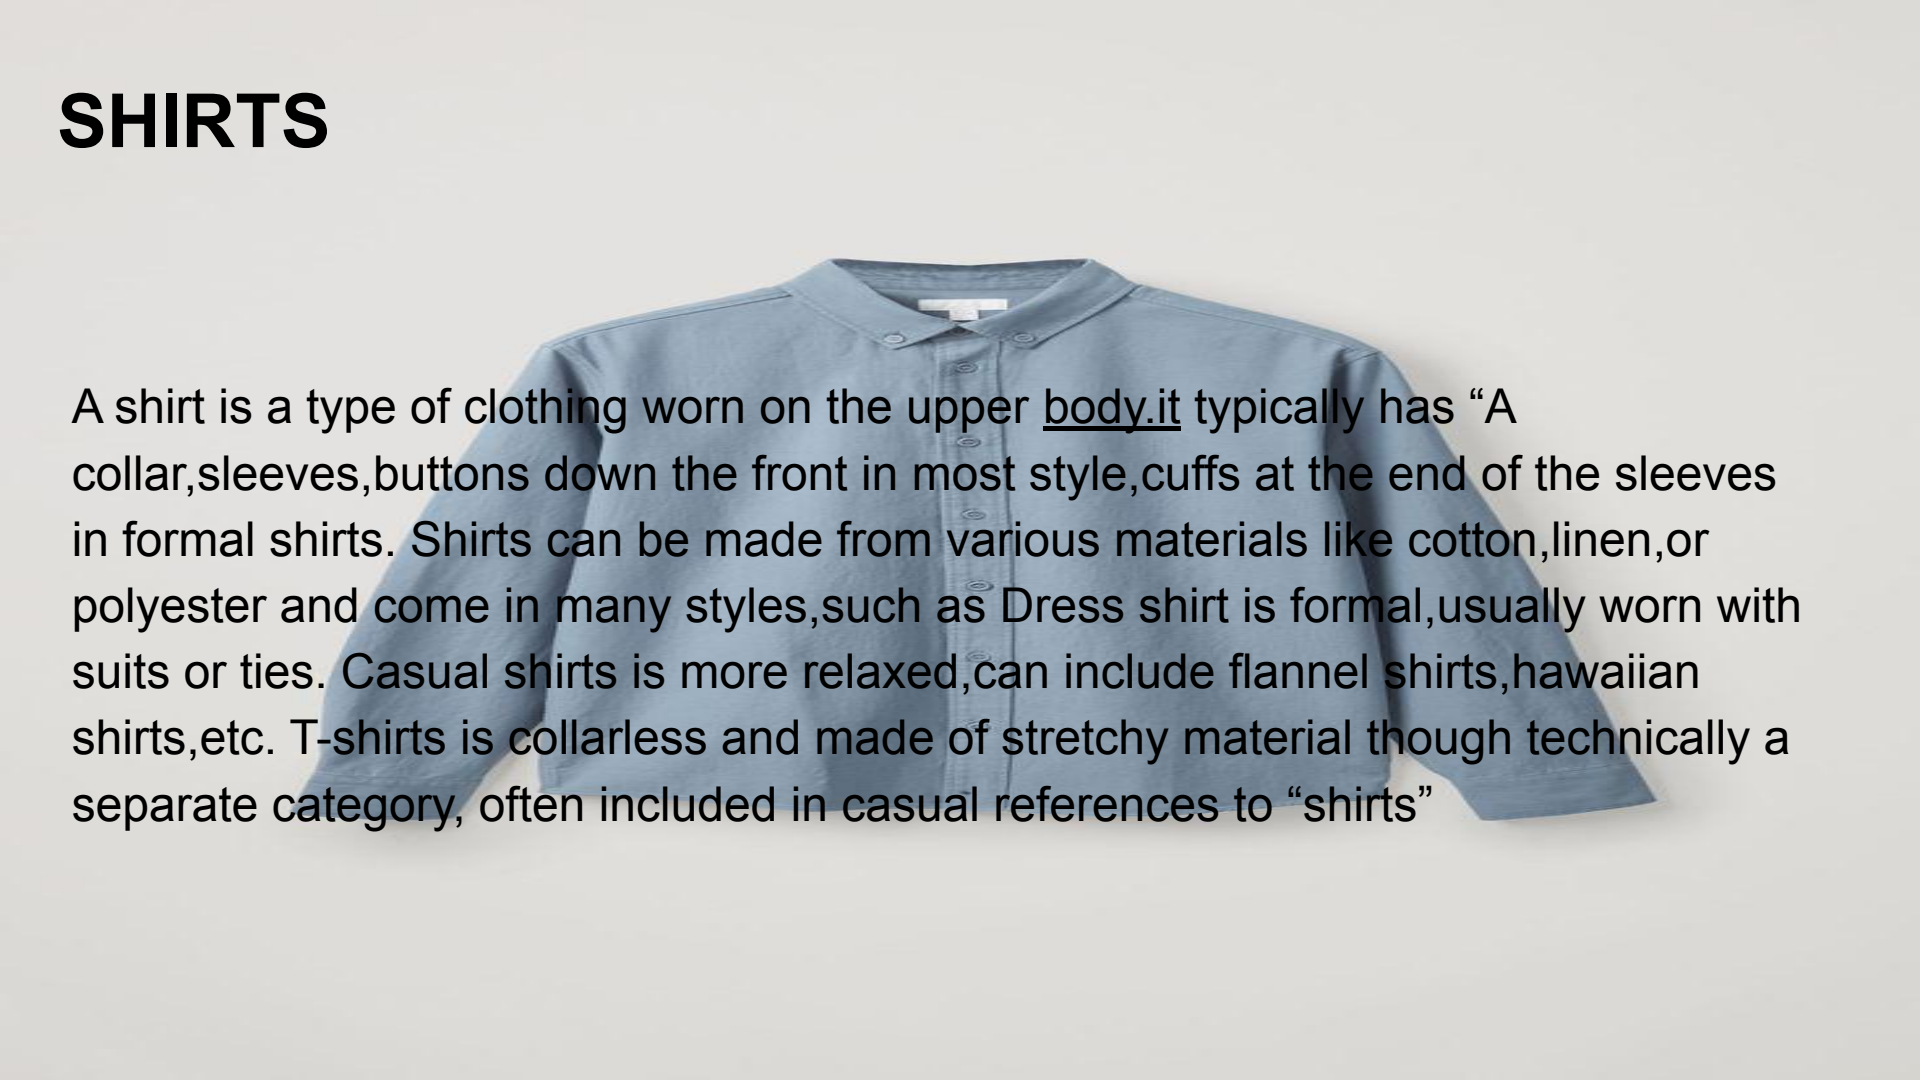
An introduction to Time mens wear

Consider the events or setting when choosing your outfitr. A suit for a formal event’s casual wear for a relaxed outing. Ultimately, the best style is one that reflects your true self.Don’t be afraid to express yourself through your clothing. It’s not just about following trends but about finding a style that reflects your personality and confidence.

SHIRTS

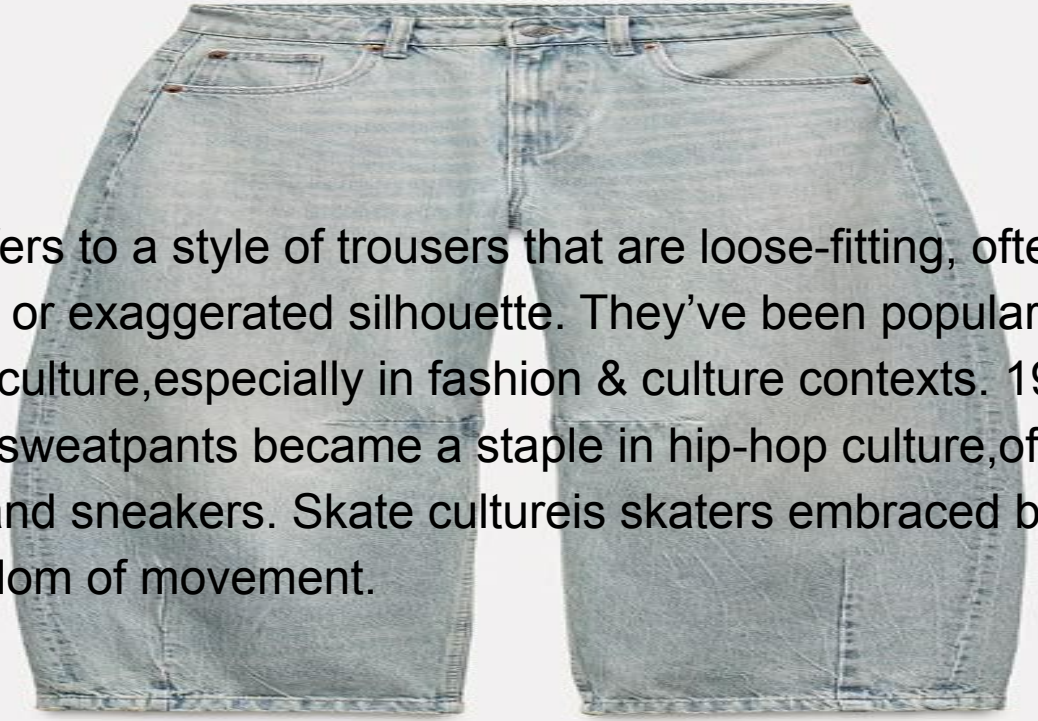


A shirt is a type of clothing worn on the upper body.it typically has “A collar,sleeves,buttons down the front in most style,cuffs at the end of the sleeves in formal shirts. Shirts can be made from various materials like cotton,linen,or polyester and come in many styles,such as Dress shirt is formal,usually worn with suits or ties. Casual shirts is more relaxed,can include flannel shirts,hawaiian shirts,etc. T-shirts is collarless and made of stretchy material though technically a separate category, often included in casual references to “shirts”

JEANS PANTS

Jeans are a type of pants made from denim fabric,usually cotton that’s woven in a sturdy way. They’re one of the most popular and versatile types of pants worldwide. Fabric is denim usually blue, but available in many colours now. Fit types is slim, skinny,straight, bootcut,relaxed,baggy,etc.

BAGGY PANTS

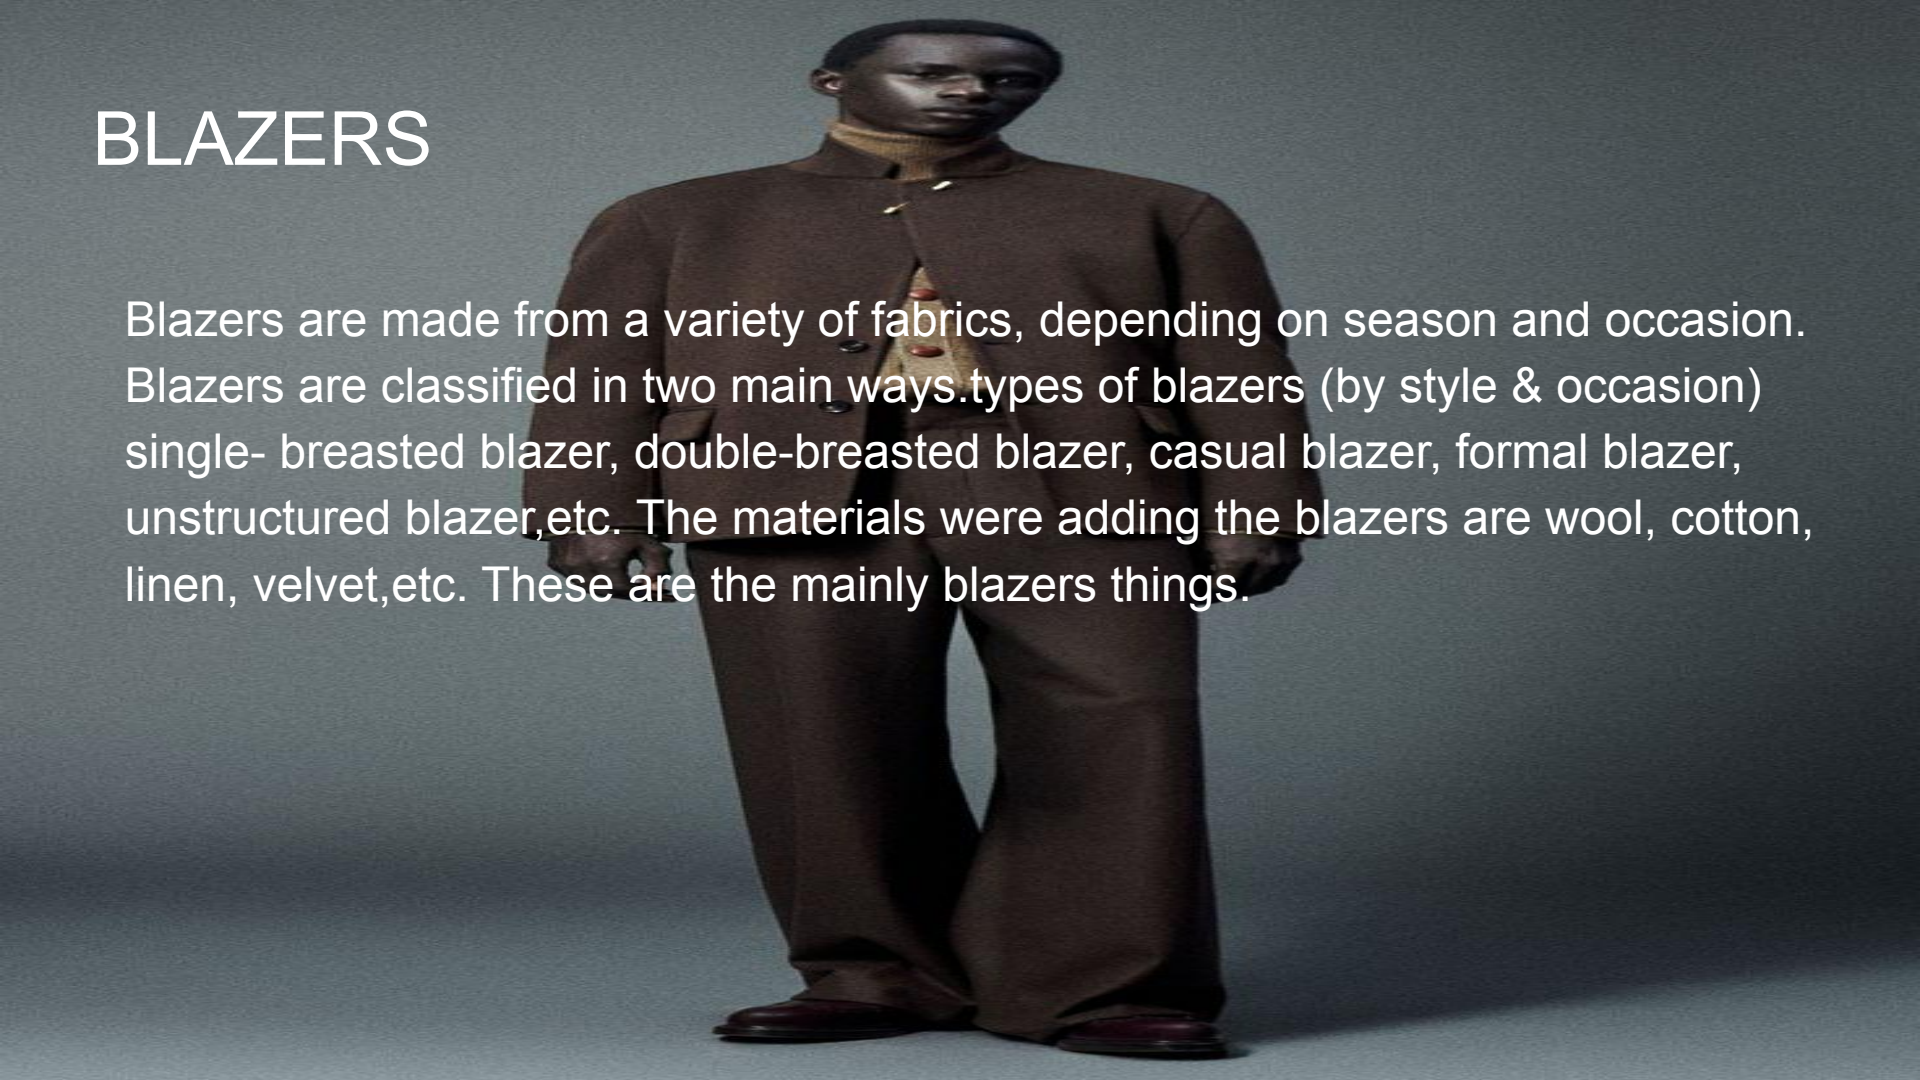


“Baggy pants” refers to a style of trousers that are loose-fitting, often oversized,and provide a relaxed or exaggerated silhouette. They’ve been popular across different decades and subculture,especially in fashion & culture contexts. 1990s Hip-Hop baggy jeans and sweatpants became a staple in hip-hop culture,often paired with oversized shirts and sneakers. Skate cultureis skaters embraced baggy pants for comfort and freedom of movement.

T-shirts

T-shirts are one of the most widely worn garments in the world because they’re simple, versatile, and relatively easy to make. The materials chosen for T-shirts play a big role in comfort, durability, cost, and even sustainability. T-shirts are comfort,soft,breathable, and lightweight compared to many other garments. The materials used in T-shirts are cotton,polyester,blends(e.g., cotton-polyester, tri-blends with rayon), rayon (or viscose), linen and organic or sustainable fabrics. This are the most thing in T-shirts

BLAZERS



Blazers are made from a variety of fabrics, depending on season and occasion. Blazers are classified in two main ways.types of blazers (by style & occasion) single- breasted blazer, double-breasted blazer, casual blazer, formal blazer, unstructured blazer,etc. The materials were adding the blazers are wool, cotton, linen, velvet,etc. These are the mainly blazers things.
